Master of Science Program Planning Sheet

Electrical and Computer Engineering

Department of Electrical and Computer Engineering

MATRICULATION YEAR FALL 2022

Student's Name (In Print): Renyu Jiang **BU ID** U18427594

Advisor Name (in Print): Richard Brower

Students are required to earn a minimum of 32 credits (8 courses) at the graduate level (500-level and above) with grades of C or better in order to graduate. Students must achieve an average GPA >=3.0 for the 32 credits used toward the degree.

Please complete this form and receive the signatures from your academic advisor AND the department (ecems@bu.edu) before applying for graduation.

PROGRAM REQUIREMENTS

1. **SOFTWARE REQUIREMENT (4 credits)**

   [X] EC602: Design by Software in ECE* **See note below**

   [ ] Check if exempt from EC602: Design by Software in ECE.

   - **Department confirmation of exemption (ecems@bu.edu):** _____
   - **Students exempted from EC602 must replace it with an ECE graduate-level course (EC500-level or above). List the course number and title here:** _____

2. **PRACTICUM REQUIREMENT (4 credits)** – Please select one:

   [X] EC601: Product Design in ECE* **See note below**

   [ ] Check if exempt from EC601: Product Design in ECE.

   - **Department confirmation of exemption (ecems@bu.edu):** _____
   - **Students exempted from EC601 must select one of the following options below**:

   [ ] EC953: MS Project

   [ ] EC954: MS Thesis

   ***Note:** In order to be exempted from these requirements, students must pass a placement exam typically given at the beginning of the academic year.

3. **ECE GRADUATE ELECTIVES (16 credits)** - Please list your 16 credits (4 courses) from ECE graduate courses at the 500-level or above (e.g., EC5XX; *excluding* EC601 and EC602). ***Include course numbers and complete course titles.***

   EC 500 A3 Special Topics in Electrical and Computer Engineering

   EC 504 Advanced Data Structures

   EC 512 Enterprise Client-Server Software Systems Design

   EC 527 High Performance Programming with Multicore and GPUs

4. **GENERAL ELECTIVES (8 credits)** – Students must take 8 credits (2 courses) of general graduate electives in addition to their ECE electives, EC601 and EC602. ***Include course numbers and complete course titles.***

   General graduate electives include College of Engineering graduate-level courses *except* courses utilized to meet other requirements. Graduate courses outside the college listed on the back of this sheet have already been pre-approved. The courses not pre-approved must be approved by the department MS committee by submitting a petition. **Petitions must be submitted in the semester of the course enrollment by the petition deadline (the first Thursday of each semester). No petition is accepted for committee review after the deadline.**

   EC 530 Software Engineering Principles

   MA 511 Introduction to Analysis I
